NOW WE'LL TREAT PARENTS JUST AS IF THEY WERE CHILDREN

We have specialised in providing personal accident insurance for school children. At the last count we were providing cover for over 600,000 children throughout the country.

But accidents are just as prone to happen in the home and at work as they are at school. So we're ready now to extend the same unique range of benefits to adults.

If you'd like to know more about a personal accident scheme approved by both the National Confederation of Parent Teacher Associations and the Royal Society for the Prevention of Accidents that gives cover up to £200,000, 24 hours a day, throughout the world, please write or call Mrs Christine Crossfield.

The College provides a comprehensive musical training for full-time students of any nationality who intend to enter the musical profession as performers, teachers or composers.

Special facilities for organists include classes in improvisation and RCO paperwork. A new three-manual organ in English style is being installed by J.W. Walker this summer, adding to the existing comprehensive range of instruments, and arrangements are being developed for collaborative activities with the organ course at the Royal Academy of Music.

Entrance is by competitive audition; many scholarships and exhibitions are awarded each year. Full details of all courses and facilities, including special one-year courses for organists planning to continue to University, are contained in the Prospectus and Entrance Guide, obtainable on application to the College. The ARCM teaching and performing diploma examinations are open to external applicants and syllabuses may be obtained on application.
