For young organists the Oundle Summer School has emerged as an established 'must'. Year after year, organists now established in prestigious musical careers write to praise the influence of Oundle upon their student days. Some 60 students aged 14 - 24, hailing from the UK and all over the world, will benefit from the inspiring tuition of a faculty of renowned teachers and recitalists, both in Oundle and in Cambridge. Our Platform Concert will feature students drawn from each of the four courses.
